

CORPORATE OVERVIEW

Field-Proven Solutions for Real World Conditions

VERSA Products Co., Inc. (VERSA) is a global engineering and manufacturing company specializing in solenoid, pilot, and manually actuated directional control valves and related components for all industrial applications that require real world reliability.

- Founded in 1948 - Incorporated 1949
- 70+ Years of Operating Experience
- 150+ Employees
- Manufactured in the USA - Serviced Globally
- Headquarters / Manufacturing Location: Paramus, New Jersey, USA
- ISO 9001:2015 Certified

WHAT WE DO

VERSA designs and manufactures field-proven, customized valve related solutions for challenging and harsh environments, in applications which are complex and require assurance of reliability.

WHY WE DO IT

VERSA's culture of caring and our long-term relationships are the foundation for everything we do. We provide our employees opportunities for personal and professional growth, while delivering our customers dependability and product reliability in the most challenging environments.

HOW WE DO IT

Engineers need quick, streamlined access to quality valves and accessories that meet precise specifications to keep systems operating reliably. With over 70 years of experience, VERSA is an expert in valve automation and fluid power. VERSA manufactures countless valve combinations, ensuring the best solution for each application.

At VERSA, we take pride in providing exceptional support to our distributor partners and customers. Our commitment to unparalleled delivery responsiveness and exemplary customer service is what sets us apart. We believe that our success is directly tied to the success of our valued partners and customers, and we are dedicated to supporting them every step of the way.

Best in Class Service:

- Competitive lead times.
- 99% on-time product delivery performance.
- Our distribution partners are an extension of our team, offering local points of service and expertise.

Maximum Performance

- Engineered to ensure maximum productivity and uptime reliability even in the harshest environments.
- Fully ported and 100% tested before leaving the factory.
- The industry's only 10-year warranty - on all products.

Integrated Product Solutions:

- VERSA offers a comprehensive product portfolio allowing us the flexibility to provide the solution tailored to meet your application needs.

V & T SERIES

Design: Packed balance spool
Construction: Forged Brass body
Service: Pneumatic to 200 psi (13.8 bar),
 Hydraulic to 500 psi (35 bar)

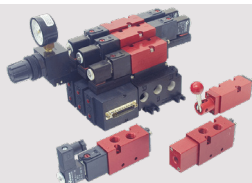

Function: 2-Way, 3-Way, 4-Way, multipurpose
Actuation: Solenoid pilot, Remote pilot, Manual,
 Mechanical or Latching/Resets
Port size (Flow): 1/8" (1.4 Cv) to 1 1/4" (14.9 Cv)

V-316 SERIES

Design: Packed balance spool
Construction: 316 Stainless Steel
Service: Pneumatic to 200 psi (13.8 bar)

Function: 3-Way, 4-Way, 7-Way (Diverter), 8-Way
 (Selector)
Actuation: Solenoid, Pilot, Manual, Latching
Port size (Flow): 1/4" (1.8 Cv) to 1" (11.1 Cv)

C SERIES

Design: Packed balance spool
Construction: Anodized Aluminum body
Service: Pneumatic to 150 psi (10.3 bar)

Function: 3-Way, 4-Way, multipurpose
Actuation: Solenoid pilot, remote pilot, manual
 or mechanical
Port size: 1/8" (0.75 Cv) to 1/2" (4.1 Cv)

C-316 SERIES

Design: Packed balance spool
Construction: 316 Stainless Steel
Service: Pneumatic to 150 psi (10.3 bar)

Function: 3-Way, 4-Way, multipurpose
Actuation: Solenoid pilot, remote pilot, manual
 or mechanical
Port size: 1/4" (2.0 Cv)

D-316 SERIES

Design: Direct acting
Construction: 316 Stainless Steel
Service: Pneumatic and Hydraulic, vac to
 175 psi (12 bar)

Function: 2-Way, 3-Way, multipurpose
Actuation: Solenoid, spring return
Port size: 1/4" (0.8 Cv)

E SERIES

Design: Direct acting
Construction: Aluminum or stainless steel body
Service: Pneumatic to 500 psi (35 bar),
 Hydraulic to 500 psi (35 bar)

Function: 2-Way, 3-Way, multipurpose
Actuation: Solenoid
Port size: 1/8" (0.06 Cv), 1/4" (0.79 Cv)

B SERIES

Design: Packed spool
Construction: Brass body, Stainless plunger
Service: Pneumatic to 200 psi (13.8 bar),
 Hydraulic to 500 psi (35 bar)

Function: 2-Way, 3-Way
Actuation: Manual, mechanical or remote pilot
Port size: 1/8" (0.6 Cv)

B-316 SERIES

Design: Packed spool
Construction: 316 Stainless Steel
Service: Pneumatic to 200 psi (13.8 bar),
 Hydraulic to 100 psi (6.9 bar)

Function: 3-Way
Actuation: Solenoid, Pilot, Manual, Mechanical,
 Latches/Resets, Indicators
Port size: 1/4" (1.6 Cv)
