Valve, 3-Way, NPB

TSP-3501-S-167

Description

T Series Directional Control Valve

The VERSA 1/2" brass T Series Valves are suited for many low-pressure hydraulic directional control applications. The T Series provides trouble-free performance under the most demanding conditions. The integrity of design makes them adaptable to a maximum number of applications with a minimum of components. The modular approach to valve construction allows valve bodies and actuating devices to be interchanged end for end and valve for valve, allowing for thousands of possible valve variations and enabling the customer to "build" the valve to fit the project's unique specifications.

Product Features

- Constructed of forged brass with electroless nickel plating for increased wear resistance, hardness and corrosion protection. Long-lasting performance in the most demanding conditions

100% Leak Tested • 10-Year Warranty

Specifications

Actuation	Pilot Spring Return
Function	3-way, 2-pos, NC
Port Size	Body Ported, 1/2" NPT
Valve Pressure Range (PSI)	0-500 psi
Valve Pressure Range (BAR)	0-34.5 bar
Primary Flow	4.0 Cv
Media	Hydraulic
Pilot Pressure Range (PSI)	55-200 psi
Pilot Pressure Range (BAR)	3.79-13.8 bar
Temperature Range (F)	-9°F to 131°F
Temperature Range (C)	-23°C to 55°C
Body & Internal Parts	Nickel Plated Brass
Weight	3.300000
