Product Updates

D-316 Series

- World Certifications
- High performance, high flow direct acting solenoid
- Ease of installation, 360° rotating solenoid housing
- Fully weather protected integral junction box (IP68 & NEMA 6P)
- 1oo2 circuitry - fully integrated dual solenoid shut-off circuit

World Solenoids

- World certifications; IEC, ATEX, North American and more
- Compact hazardous location
- Low power standard, 0.5 watt available
- NEMA 4X, 6P / IP66/67/68
- High performance materials, stainless housing
- Low temperature service
- Rotate conduit hub 360 for ease of installation

NAMUR

- High performance bubble tight sealing
- All solenoid area certifications available
- Field convertible functions 3-way to 4-way
- Available in aluminum or stainless steel
- New 1/2" Aluminum available

Accessories for Automated Valves

- Palm button pressure indicator. Option 403RG for V-316 line
- 1 1/2" Quick exhaust with optional exhaust dust excluder

High Pressure Products

- Filters, Regulators, Block & Bleeds and more
- To 6000 psi rating
- All 316 stainless steel
- Modular air package available to 1500 psi

VALVES Versa Products Company has manufactured high quality pneumatic and low pressure hydraulic valves for over 65 years. Our valves are available in 316 stainless steel, brass, and aluminum. Our modular designs allow for multiple variations of solenoid, pilot, or mechanically actuated valves.

ACCESSORIES Versa also manufactures a wide range of accessories to provide additional functions, protection and safety when used in a valve control circuit. Flow controls, quick exhausts and relief valves are just a few of the accessories available to the process control industry.

MANIFOLD SYSTEMS Actuator control system manifolds combine valves, regulators and accessories into Versa's innovative modular air package concept. Three types, CMAP, DMAP and VMAP, cover the majority of the control system applications.
